### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention recited in the independent claims, below.

Claim 1 recites a power line being arranged along an electrical wire for supplying power to a motor and a voltage measurement unit for measuring an electromotive force in the electrical wire induced by supplying the power to the power line.

Claim 2 recites a shielded conductor covering an electrical wire being electrically connected to a motor electrical wire for supplying power to a motor, and a voltage measurement device for measuring an electromotive force in the shielded conductor induced by supplying a current to the electrical wire.

Claims 7, 9 and 13 recite a charged body, which is arranged near an electrical wire for supplying a power to a motor, and a voltage measurement unit for measuring an electromotive force induced in the electrical wire by the charged body.

Claims 8, 12 and 14 recite a charged body, which is arranged near an electrical wire for supplying a power to a motor, and a voltage measurement device for measuring an electromotive force induced in the conductor by the charged body.

Claim 15 recites a method of arranging a charged body electrically insulated from an electrical wire for supplying a power to the motor near the motor electrical wire and measuring an electromotive force induced in the motor electrical wire by the charged body.

Claim 16 recites a method of arranging a charged body electrically insulated from an electrical wire and a conductor near the electrical wire and measuring an electromotive force induced in the conductor by the charged body.

2. Consequently, independent claims 1, 2, 7-9 and 12-16 are allowed over the prior arts of record. Claim 3, 6 and 17 are directly or indirectly depended upon claims 1 and 2 and therefore are also allowable. Claims 4, 5, 10 and 11 are cancelled.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
